

The figure displays three t-SNE plots showing gene expression clusters for TP53, RB1, and CIC. The x-axis is labeled 'cluster' and the y-axis is labeled 'expression'.

- Top Plot:** Shows TP53 (red), RB1 (blue), and CIC (purple) clusters. TP53 is highly expressed in cluster 3, RB1 in cluster 1, and CIC in cluster 2.
- Middle Plot:** Shows TP53 (red), RB1 (blue), and CIC (purple) clusters. TP53 is highly expressed in cluster 3, RB1 in cluster 1, and CIC in cluster 2.
- Bottom Plot:** Shows TP53 (red), RB1 (blue), and CIC (purple) clusters. TP53 is highly expressed in cluster 3, RB1 in cluster 1, and CIC in cluster 2.
